

IKB Kip: working together on a system to remain proud of

IKB Kip provides independent quality assurance and relieves its participants of the burden in that context. This will not change in 2021 but we will take the concept further. Food safety is the top priority IKB Kip focuses on the following themes:

1. Working together on a system that we can all remain proud of
 - ✓ In 2020, we started the 'Recalibrating IKB Kip's positioning' project. This project revitalises IKB Kip's goals and objectives. And this clearly demonstrates the added value IKB offers;
 - ✓ In 2021, the results of the review will be rolled out, and there will be communication and more detailed explanation;
 - ✓ Increasing the way IKB Kip is valued, for instance by attracting market parties and customers more.
2. IKB Kip being an efficient and effective scheme
 - ✓ Looking critically at administrative burdens for participants;
 - ✓ Monitoring the effectiveness of IKB Kip, and adjusting regulations where necessary (control cycle);
 - ✓ Integration of the KIPnet database into the KIP database.
 - ✓ Integrating the best elements of remote control into IKB Kip's processes
3. Scheme and scheme management
 - ✓ Implementing regular scheme management in accordance with ISO 17065;
 - ✓ Harmonization within the chain;
 - ✓ Preparing changes, where necessary, with the Central Board of Experts (CCvD);
4. Support and guidance for participants
 - ✓ Implementing a responsible use of resources project (tools for participants);
 - ✓ Coordinating with ketenborging.nl about adjusted NVWA supervision among participants.
 - ✓ Good communication to participants and good secretariat accessibility
